## ONLINE LECTURES IN BIOSCIENCE

Heidelberg University is a member of the 4EU+ Alliance, consisting of **Charles University in Prague**, **Heidelberg University**, **Sorbonne University** in Paris, the **University of Warsaw**, the **University of Copenhagen** and the **University of Milan**. 4EU+ aims to create a new quality of cooperation between the six universities in manifold areas. The goal is the creation of a 'European University' with compatible courses of study, flexible study paths for students and manifold mobility options for students and academic staff ([www.4euplus.eu](http://www.4euplus.eu)).

In summer semester 2021 Heidelberg University offers Online Lectures from the Faculty of Biosciences to students from the five other 4EU+ member universities: Charles University, Sorbonne University, University of Copenhagen University of Milan, and University of Warsaw.

The online lectures are organized by the faculty of Biosciences and offered either as daily course (up to one and a half month) or weekly course (4 months). All courses are held in English. The admission is granted to a limited number of interested students of Biosciences. Students can only participate as guest students and are therefore not formally enrolled at Heidelberg University.

**Register for the courses via online form:**

[https://forms.office.com/Pages/ResponsePage.aspx?id=L38FPWaE\\_UOKVI0zTRPYIRaFiuAMwJNlrHMJc8FLt\\_5UMUxDTIFFVjY3OERaREpYRUdJNDhYSU1MMSQIQCN0PWcu](https://forms.office.com/Pages/ResponsePage.aspx?id=L38FPWaE_UOKVI0zTRPYIRaFiuAMwJNlrHMJc8FLt_5UMUxDTIFFVjY3OERaREpYRUdJNDhYSU1MMSQIQCN0PWcu)

**Deadline: 2 April 2021**

**Course period: 12 April – 16 July 2021** (the exact date and time differs for each course)

**ECTS: 2** (For recognition, please check before with the coordinator at the home university)

**Overview of courses in the course catalogue:** <https://lsf.uni-heidelberg.de/qjsserver/rds?state=wtree&search=1&trex=step&root120211=128842|129411|129597&P.vx=mittel>

After the deadline, students receive an email notice of the selection process and further information on how to access the course.

**Please check below for a detailed course description and a link to the course catalogue of each course:**

Focus I Cancer: "Molecular Principles of Cancer Development" .....	2
Focus I Dev: Genetic and Epigenetic Mechanisms.....	3
Focus II Dev: Stem Cell Biology .....	4
Focus I InfDis: Molecular Virology .....	5
Focus II InfDis: Pathogenic Microorganisms.....	6
Focus I MAPS: Plant Cell & Developmental Biology.....	7
Focus II MAPS: Plant Signal Transduction & Metabolism .....	8
Focus I MCB: Advanced Molecular and Cellular Biology.....	9
Focus II Neuro: Molecules, neurons, network, behaviour .....	10
Biochemistry and Pathobiochemistry.....	11
Introduction to the Immune System .....	12

# FOCUS I CANCER: MOLECULAR PRINCIPLES OF CANCER DEVELOPMENT

Time	13.04.2021 – 21.05.2021
Frequency	Daily, 8:15-10:00h
Format	Online-Lecture
Level	MA
Language	English
Contact	Eva Gundel ( <a href="mailto:e.gundel@dkfz.de">e.gundel@dkfz.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Cancer Biology
Description	The lecture series follows in most parts the book by Robert Weinberg „The Biology of Cancer“.
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331325&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltung">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331325&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltung</a>
Free places	20

# FOCUS I DEV: GENETIC AND EPIGENETIC MECHANISMS

Time	12 04 2021 – 20 05 2021
Frequency	Daily, 8:15 - 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Petra Kaspar ( <a href="mailto:petra.kaspar@cos.uni-heidelberg.de">petra.kaspar@cos.uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Developmental and Stem Cell Biology.
Course Description	<p>The Focus I lecture covers the topics:</p> <ul style="list-style-type: none"> <li>— Genetic model systems</li> <li>— Genetic screens and mapping</li> <li>— Transgenesis approaches</li> <li>— Genetics of retinal development</li> <li>— Comparative evolutionary genetics</li> <li>— Genetic tools for lineaging</li> <li>— Genetic tools for clone generation</li> <li>— Genetic and epigenetic regulation mediated by non-coding RNAs</li> <li>— Developmental genetics of plants: patterning the root</li> <li>— Signals and networks in stem cells</li> <li>— Cellular heterogeneities and molecular noise</li> <li>— Developmental genetics of Drosophila</li> <li>— Epigenetics in plant development</li> <li>— Molecular mechanisms of symbiosis</li> <li>— Developmental timing- the genetics of the somite segmentation clock</li> <li>— Epigenetics and development</li> <li>— Genome engineering in mouse and non-model organisms</li> <li>— Population genomics and WGA genetics</li> </ul>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=332168&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=332168&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	10

## FOCUS II DEV: STEM CELL BIOLOGY

Time	07 06 2021 – 16 07 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Petra Kaspar ( <a href="mailto:petra.kaspar@cos.uni-heidelberg.de">petra.kaspar@cos.uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Developmental and Stem Cell Biology
Course Description	<p>The Focus II lecture covers the topics:</p> <ul style="list-style-type: none"> <li>— Cell cycle regulation</li> <li>— Asymmetric cell division</li> <li>— Stem cell regulation in plants: Developmental principles and the shoot meristem</li> <li>— Stem cell regulation in plants: root meristem</li> <li>— Stem cell regulation in plants: cambium</li> <li>— Germ line stem cells in Drosophila</li> <li>— Conserved signaling pathways in stem cells</li> <li>— Stem cell systems in early metazoans</li> <li>— Stem cells in higher eukaryotes</li> <li>— Neuronal stem cells in vertebrates</li> <li>— Vasculature and stem cells</li> <li>— Stem cell regulation in humans</li> </ul>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331877&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331877&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	10

## FOCUS I INFDIS: MOLECULAR VIROLOGY

Time	12 04 2021 – 30 04 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Ilka Rebhan ( <a href="mailto:ilka.rebhan@med.uni-heidelberg.de">ilka.rebhan@med.uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Infectious Diseases.
Course Description	The lecture 'Molecular Virology' introduces basic principles of Virology and will then focus in more detail on the different steps of virus replication, comparing strategies of different virus families. Further topics include viral pathogenesis, latency and antiviral therapy. The lecture will be accompanied by tutorials with a focus on experimental strategies.
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=333474&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=333474&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	10

# FOCUS II INFDIS: PATHOGENIC MICROORGANISMS

Time	21 06 2021 – 02 07 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Ilka Rebhan ( <a href="mailto:ilka.rebhan@med.uni-heidelberg.de">ilka.rebhan@med.uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Infectious Diseases.
Course Description	The lecture covers topics in disease mechanisms of bacteria and parasites. In detail, virulence principles (adhesion, motility, toxins, and secretion systems) of selected pathogenic microorganisms are discussed on the molecular level. Another focus are host pathogen interactions. Finally, the lecture deals with immune defense mechanisms to combat infections.
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331957&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltung">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331957&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltung</a>
Free places	12

<b>FOCUS I MAPS: PLANT CELL &amp; DEVELOPMENTAL BIOLOGY</b>	
Time	12 04 2021 – 30 04 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Petra Kaspar ( <a href="mailto:petra.kaspar@cos.uni-heidelberg.de">petra.kaspar@cos.uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Molecular and Applied Plant Sciences
Course Description	<p>The Focus I lecture covers the topics:</p> <ul style="list-style-type: none"> <li>— Specification of cell identity in roots</li> <li>— Epigenetics</li> <li>— Leaf development</li> <li>— Cell polarity</li> <li>— Evolution of the flower</li> <li>— Control of cell behaviour in the shoot meristem</li> <li>— Cellulose and pectin biosynthesis, cell mechanics and mechanical signalling</li> <li>— Sexual and asexual plant reproduction through seeds</li> <li>— Methods in plant cell biology</li> <li>— Nano sensors for in vivo analysis of ions and metabolites</li> <li>— Trafficking of receptors and transporters</li> </ul>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=339412&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=339412&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	12

# FOCUS II MAPS: PLANT SIGNAL TRANSDUCTION & METABOLISM

Time	21 06 2021 – 02 07 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Petra Kaspar ( <a href="mailto:petra.kaspar@cos.uni-heidelberg.de">petra.kaspar@cos.uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Molecular and Applied Plant Sciences.
Course Description	The Focus 2 lecture covers the topics: <ul style="list-style-type: none"> <li>— ABA</li> <li>— Compartmentation of secondary metabolism</li> <li>— Coordination of organellar activities</li> <li>— Strigolactones</li> <li>— Regulation of flavonoid and stilbene metabolism</li> <li>— Brassinosteroids and cell surface receptor-mediated signalling</li> <li>— How plants sense their environment</li> </ul>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=339415&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=339415&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	12

# FOCUS I MCB: ADVANCED MOLECULAR AND CELLULAR BIOLOGY

Time	12 04 2021 28 05 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Victor Winter ( <a href="mailto:winter@uni-heidelberg.de">winter@uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Molecular and Cellular Biology.
Course Description	<p>The lecture series covers topics like:</p> <ul style="list-style-type: none"> <li>— Advanced mass spectrometry</li> <li>— Enzyme kinetics</li> <li>— Oxidative protein folding</li> <li>— Modelling of reactions</li> <li>— NMR, Protein folding &amp; chaperones</li> <li>— Protein modelling</li> <li>— Yeast as a model system</li> <li>— Drosophila as a model system</li> <li>— C. elegans as a model system</li> <li>— Protist models and endosymbiotic organelles</li> <li>— Drug discovery</li> <li>— Drug development</li> <li>— Vesicular transport</li> <li>— Ubiquitin</li> <li>— SUMO</li> </ul> <p>and more.</p>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331598&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331598&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	8

## FOCUS II NEURO: MOLECULES, NEURONS, NETWORK, BEHAVIOUR

Time	10 05 2021 – 18 06 2021
Frequency	Daily, 8:15 – 9:45h
Format	Online-Lecture
Level	MA
Language	English
Contact	Victor Winter ( <a href="mailto:winter@uni-heidelberg.de">winter@uni-heidelberg.de</a> )
ECTS	2
Subject	Molecular Bioscience
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Neurosciences.
Course Description	Lecturers from the Interdisciplinary Center of Neuroscience (IZN) will introduce the students to their field of research and explain the current scientific progress in these fields. The objective of this lecture series is to provide students with an accurate overview of the scientific activities in the neuroscience community of Heidelberg and Mannheim. This will enable a competent choice of an IZN laboratory for the Master thesis.
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=332903&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltung">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=332903&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltung</a>
Free places	8

<b>BIOCHEMISTRY AND PATHOBIOCHEMISTRY</b>	
Time	13 04 2021 – 30 06 2021
Frequency	Weekly (every Tuesday), 8:30 – 10:00h
Format	Online-Lecture
Level	MA
Language	English
Contact	Rainer Beck ( <a href="mailto:beck@bzh.uni-heidelberg.de">beck@bzh.uni-heidelberg.de</a> )
ECTS	2
Subject	Biochemistry
Learning objectives	Students acquire, broaden and reinforce special knowledge in the area of Biomolecules.
Course Description	<p>In this lecture series, various researchers as experts in their field of study give a detailed overview over the molecular basis of disease development and also give insights into their current research.</p> <p>Among the topics are (this is not the complete list):</p> <ul style="list-style-type: none"> <li>— Lysosomal Storage Diseases</li> <li>— Pathobiochemistry of Hepatitis C Virus</li> <li>— Influenza A Virus</li> <li>— Bacterial Toxins</li> <li>— Autophagy and mTOR signaling</li> <li>— Tumor metabolism</li> <li>— Tumor Survival</li> <li>— Biochemistry of Obesity</li> </ul> <p>The objective of this lecture series is to help students understand the complex interplay of biomolecules on a molecular level, and to connect this knowledge with disease development and ultimately treatment or diagnostics.</p>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331494&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=331494&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	20

<b>INTRODUCTION TO THE IMMUNE SYSTEM</b>	
Time	13 04 2021 – 30 06 2021
Frequency	Weekly (every Tuesday), 16:00 – 17:00h
Format	Online-Lecture
Level	BA
Language	English
Teacher	Maria Dinkelacker ( <a href="mailto:m.dinkelacker@dkfz-heidelberg.de">m.dinkelacker@dkfz-heidelberg.de</a> )
ECTS	2
Subject	Biosciences
Learning objectives	Students acquire, broaden and reinforce basic knowledge in the area of immunology.
Course Description	<p>The lecture covers the following topics:</p> <ul style="list-style-type: none"> <li>— 23.4. - Basic Concepts in Immunology</li> <li>— 30.4. - Innate Immunity</li> <li>— 7.5. - B cell Immunology</li> <li>— 14.5. T cell Immunology</li> <li>— 21.5. The generation of lymphocyte antigen receptors</li> <li>— 28.5. Antigen presentation of T cells</li> <li>— 4.6. Signaling through receptors in the immune system</li> <li>— 11.6. humoral immune response</li> <li>— 18.6. the adaptive immunity</li> <li>— 25.6. the mucosal immune system</li> <li>— 02.7. failures of host defense mechanisms</li> <li>— 09.07. allergy and allergic disease</li> <li>— 16.7. Autoimmunity and transplantation</li> </ul> <p>Topics might be shifted upon demand. Literature: Janeway Immunobiology, 9th edition, paperback (please buy and prepare)</p>
Link	<a href="https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=335691&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen">https://lsf.uni-heidelberg.de/qisserver/rds?state=verpublish&amp;status=init&amp;vmfile=no&amp;publishid=335691&amp;moduleCall=webInfo&amp;publishConfFile=webInfo&amp;publishSubDir=veranstaltungen</a>
Free places	10
